

16 May 2017

Press Release: eurotoll is now wholly owned by Abertis.

On 16 May, the acquisition of eurotoll by Abertis is completely finalised. eurotoll becomes a subsidiary 100% owned by Abertis. The direct support from the world leader in toll road management and with strong financial capacity such as Abertis will allow Eurotoll to accelerate its business expansion in European electronic tolling market."

Established in 2006 by Sanef, the French motorway company also wholly owned by Abertis, eurotoll is a leading European Electronic Toll Service "EETS" provider for Heavy Goods Vehicles assisting transportation companies in the management and control of their toll and tax expenses.

Throughout the years, eurotoll has been able to keep an innovative spirit in order to anticipate market evolutions and offer services adapted to the needs of their customers. Today eurotoll network covers 55 000 km of toll roads as well as tunnels, bridges and secure parking sites in 16 countries (France, Spain, Portugal, Belgium, Germany, Austria, Italy, Sweden, Denmark, Poland, The Czech Republic, Hungary, Slovakia, Switzerland, Luxembourg, the Netherlands).

In the coming months, eurotoll clients will have the possibility to travel with a unique interoperable On Board Unit **tribox Air** embedded with DSRC/GNSS/GSM and "over the air" technologies not only in France, Spain, Portugal, Liefkenshoek, and Austria, but also in Belgium (Viapass network) from September 2017 and in Germany in 2018.
